

waste not

WHO WE ARE

We are a food rescue organization dedicated to eliminating food waste and hunger through innovative partnerships with food businesses and nonprofits.

Waste Not's daily effort is to keep good food out of landfills. By picking up thousands of pounds of food each day, we're able to stop not only food waste, but also money, water, and energy waste.

By keeping the food from decomposing in a landfill, we are able to avoid adding more methane to the atmosphere and by association doing our part to prevent global warming.

Through two unique, yet simple programs, we rescue food. Grocery Rescue which is routine and managed by staff. MealConnect which is more for sporadic, one-time donations and is completely ran by volunteers. But neither would be possible, without food businesses pursuing sustainability and compassion.

Make a tax-deductible donation, follow us on our social media channels @wastenotaz, or get involved in another way.
